Hi Kaggler,

Today's Assignment

- Read this tutorial (from Lesson 4 of the Intermediate ML course)
- 2. Complete this exercise (from Lesson 4 of the Intermediate ML course)
- 3. Read this tutorial (from Lesson 5 of the Intermediate ML course)
- 4. Complete this exercise (from Lesson 5 of the Intermediate ML course)

What You'll Learn

In **Lesson 4 (Pipelines)**, you'll learn a simple way to keep your data preprocessing and modeling code organized.

You're already a bit familiar with model validation from the Intro to Machine Learning course. In **Lesson 5 (Cross-Validation)**, you'll explore a more advanced validation technique that gives a better measure of model performance.

Happy learning, Alexis
